This site provides 5,000+ unduplicated and continuously updated links to free public records sites and many other free Internet resources of value to investigators. The **DVASEMINAR Group** also provides instant access to a variety of downloadable documents, reports and freeware. One of the most important aspects of this site is the Listserv-type mail list. Currently more than 3,000 investigators and other professionals from across the U.S. are a part of this network. Members can ask questions or seek assistance from other members nationwide. These information requests or questions may be answered within minutes. A major benefit is that all participants see both the questions and answers. The site also provides a keyword search capability so participants can search for topics that may have been covered in earlier messages.

The cost for the two-day workshop is \$395 per person with a \$50 per person discount when one organization registers three or more people. Registrations **with payment** received **in our office** at least **15 days prior** to the workshop dates earn a **10% discount**.
