ALVIN COMMUNITY COLLEGE
Health Programs
POLICY FOR DRUG SCREENING

PURPOSE
- Promote And Protect Patient/Client Safety
- Comply With Clinical Affiliates Drug Screen Requirements
- Detect Illegal Drug Use

DEFINITIONS
- **Positive Drug Test**: A positive drug test means a medically acceptable drug test, approved by Alvin Community College, the results of which indicate the use of illegal drugs.
- **Illegal Drugs**: Illegal drugs include those drugs made illegal to possess, consume, or sell by Texas and Federal statutes. An illegal drug also includes those drugs taken by an individual which exceed the prescribed limits of a lawful prescription or the taking of a prescription drug without a valid prescription.

DRUG SCREENING PROCEDURE
Drug screening is conducted on all student applicants prior to acceptance into the program and a Positive Drug Test will bar admission to the program for a minimum of 12 months. The results of the drug test are generally accepted for the duration of the student’s uninterrupted enrollment in the program unless allegations are made to support reasonable cause that the student is not free of illegal drug use; with reasonable cause the student may be required to submit to further drug screening at his/her own expense. Alvin Community College is responsible for designating and approving the drug testing procedures. The student must complete drug screening at the scheduled time. An unscheduled drug screen will result in an additional expense to the student and conducted at a time and place designated by the college. The student must pre-pay for the drug screen as directed by the Program. The student is required to complete a release directing the company/agency conducting the drug screen test to send the results directly to the Program Director.

When the drug test results are reported by the Medical Review Officer, they are final. Within 10 days of learning of a positive result, a student can request to have their original specimen retested. The request must be stated in writing to Alvin Community College. There will be an additional cost for this process. If the final results change, the student will receive a refund for the requested second testing. Once the drug screen and the GC/MS (Gas Chromatography / Mass Spectrometry) confirmation are completed, and the Medical Review Officer has reported the results of the second set of testing, those results are final and cannot be appealed.

POLICY
When the college determines that a student has a positive drug test, the student is not allowed to attend any clinical agency/rotation for a minimum of twelve months and may affect his/her readmission to the program. The student with the positive drug test is required to withdraw from the clinical course and all concurrent health, nursing or allied health programs. Prior to returning to the program, the student must re-apply and be accepted to the program (including re-testing), have a negative drug test, and provide satisfactory documentation to the college of successful drug counseling and treatment, all at the expense of the student. When a student with a previously positive drug test is accepted back into the program he/she will be subjected to unannounced random drug screening at their expense.
My signature certifies that I have read, understand and agree to accept the Alvin Community College Health Program’s “Policy for Drug Screening”.
