Access

**ProQuest SciTech has 7 databases. You can narrow down your search by selecting a specific database by clicking here. You can also just type your keyword in the search bar and it will search all 7 databases.**

**Now you are ready to start your search. Just type your keyword in the search bar.**

**Once you have your results, you can further narrow down your results by selecting the source type, publication date, subject, etc.**

**After you find an article that fits your research, click on the title of the article to view the content.**

**Once you have clicked on the article you want to view, you will find helpful tools on the right hand side such as the **citation** which is provided in AMA, APA, Chicago, Harvard, MLA, and other formats.**

Computers and viral diseases. Preliminary bioinformatics studies on the design of a synthetic vaccine and a preventative peptidomimetic antagonist against the SARS-CoV-2 (2019-nCoV, COVID-19) coronavirus.

Robson, B; National Library of Medicine. *Computers in biology and medicine* Vol. 119, (April 2020): 103670.  
DOI:10.1016/j.combiomed.2020.103670
