MATH 1333—COLLEGE MATHEMATICS FOR TECHNICAL PROGRAMS

Homework: Assignments are attached.

Homework Notebook: Assignments are listed under “HAND-IN” on the attached Assignment Sheet. This notebook will be handed in and five of the assigned problems will be graded. No Late Notebook will be accepted.

Paper: A two-three page typed paper will be written over “how math is used in your field of study”. This paper will have three references—one must be from the internet and one must be a printed resource. Footnoting is not required. The paper will be graded on mathematical accuracy and proper English usage. No late paper will be accepted.

Or Journal: A journal with exactly ten entries, all of which deal with math will be required. Each entry will be between ½ and one page in length.

Hour Exams: Four hour exams will be given—approximately at the end of every two chapters. The last hour exam will be given at the time of the scheduled final. There will be no make-up exams.

Grading: The lowest grade will be dropped. The grade for the course will be given on the average of the remaining five grades.
