GUIDELINES FOR THE NEURODIAGNOSTIC INSTITUTIONAL SCHOLARSHIP

1. As ACC institutional funds are made available, scholarship(s) will be awarded to full and/or part-time neurodiagnostic students who meet the institutional and neurodiagnostic scholarship requirements. The funds will be awarded for the fall and spring semesters to be used to help cover the costs of tuition, books, and supplies not to exceed $500 per student per semester.

2. Students must apply through the neurodiagnostic program director.

3. A full-time student will be eligible to apply when he/she has completed at least twelve (12) semester hours in the previous semester with a grade point average (GPA) of 3.0 and no grade lower than a C for that semester.

4. A part-time student will be eligible to apply for a pro-rated scholarship when he/she has completed at least seven (7) hours in the previous semester with a GPA of 3.0 and no grade lower than a C for that semester.

5. To remain on scholarship, a full-time student must maintain a cumulative GPA of at least 3.0 and must complete at least twelve (12) hours during the previous semester with no grade lower than a C. (A part-time student must maintain a 3.0 GPA and complete at least six (6) hours during the previous semester with no grade lower than a C.)

6. Any student who is receiving a scholarship and withdraws from the NDT program will not be eligible for a subsequent scholarship if he/she re-enters the program.

7. Recipient(s) of the scholarship(s) for this department will be selected by the NDT Scholarship Committee which does not include any of the NDT faculty. This Committee selects the recipient(s) based on the following additional criteria:

   a. Any student who is receiving V.A. benefits will not be eligible for this scholarship.
   b. Any student who is receiving any other major scholarship will not be eligible for this scholarship.
   c. Any student who actively participates in any extracurricular activities on campus and/or in the community will be selected over those who do not participate.
   d. If all other qualifications of the applicants are equal, the GPA on the NDT courses will be used to determine the recipient(s). If these grades do not discriminate between the applicants, then the GPA of the NDT, science and math courses will be used to select the recipient(s).
   e. A student's financial need should not be a factor in determining the recipient(s).

This is to certify that I have read and understand these guidelines.
