**ALVIN COMMUNITY COLLEGE  
MAINTENANCE & OPERATIONS BUDGET  
ACADMIC YEAR 2021-2022**

Office of the President  
Dr. Robert J. Exley  
October 2021

Alvin Community College completed the 2020-2021 year in excellent fiscal health which provides the base for the development of this 2021-2022 budget.

The impact of the COVID pandemic has been significant and will remain a key factor to consider as we move into the future. One key aspect of this unique time is the infusion of federal funds designed to provide relief and support. Each of the three acts includes funds restricted to direct support for students as well as a portion for institutional support. Institutions are allowed to use institutional funds for direct student support (grants) but student funds must be used only for direct support to students.

The following provides a summary of how ACC has utilized these funds.

**Summary of HEERF I, II & III Expenditures**

	<i>HERF I – CARES</i>	<i>HERF II – CRRSAA</i>	<i>HERF III - ARP</i>	<i>TOTAL</i>
<b>STUDENT</b>				
<i>Student Grants</i>	\$ 1,138,749	\$ 1,138,749	\$ 1,703,117	\$ 3,980,615
<b>INSTITUTIONAL</b>				
<i>Campus Safety &amp; Operations</i>	\$ 459,906	\$ 51,610	-	\$ 511,516
<i>Equipment to Enable Distance Learning</i>	\$ 321,185	\$ 144,360	\$ 66,732	\$ 532,277
<i>Technology to Enable Remote Working</i>	\$ 349,275	\$ 28,029	\$ 1,010	\$ 378,296
<i>Lost Revenue</i>	-	\$ 2,809,136	-	\$ 2,809,136

<i>Student Grants</i>	\$ 8,382	\$ 564,905	\$ 1,873,309	\$ 2,446,596
<b>TOTAL</b>	\$ 2,277,497	\$ 4,736,789	\$ 3,645,763	\$ 10,660,049

**Notable ACC Board of Regents Actions**

The Alvin Community College Board of Regents recognized the contributions of our employees during this extremely demanding time by approving a six percent cost of living increase included in the 2021-2022 budget of \$38,428,839. And the Board also recognized the ongoing stress for our taxpayers by

approving a No New Revenue Tax Rate that decreases the total tax rate (per \$100 of value) from the 2020 rate of \$0.183443 to the 2021 rate of \$0.183211. This is a decrease of 0.13%.

Considerations to Keep in Mind

First, we must remain mindful of the continued impact of the pandemic on our community, our students, and our employees. Although we have a fiscally sound college with an excellent budget for the 2021-2022 year, we must remain diligent in monitoring our expenses and seeking out additional revenue streams.

Second, we are establishing new baselines regarding contact hours and headcount that will impact us as we move forward. Attracting new students, identifying former students who have not completed a degree with ACC and then convincing them to return, enhancing our dual enrollment and first time in college student enrollment, and implementing novel workforce development training programs as well as additional programs of study all represent actions to undergird our fiscal health.

And third, we must develop additional collaborations and partnerships to enhance all that we do for our students and community stakeholders. Many of our students face both housing insecurity and food insecurity. This translates into the need for additional support and assistance or what is known as 'wrap-around services' than perhaps has been included in past budgets. As the year progresses new opportunities for partnerships will arise for us to pursue.

## **2020-2021 Maintenance and Operations Budget**

Office of Vice President, Administrative Services

Karl Stager CPA

September 29, 2021

### **STATE NEWS**

The 2021-2022 proposed Maintenance and Operations Budget for Alvin Community College does have a reduction in the State Appropriation of \$185,014 (2.38%) after the completion of the 87<sup>th</sup> Texas Legislative Session.

Health Insurance and Dental Insurance premiums did not increase for 2021-2022.

### **LOCAL NEWS**

The 2021 Fall Enrollment for the College is down 10.9% from the Fall 2020 semester. The current tuition and fee estimate for 2021-2022 does not reflect an increase due to a perceived delay of students returning to campus because of the suppressing effects of the COVID-19 pandemic. The College is currently assisting students with Federal stimulus funds. The College was awarded funds from the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and the American Rescue Plan (ARP) stimulus bills. Some of these funds will go towards assistance or direct emergency grants for students. The student can opt to use these funds for tuition and fees.

Beginning in the Summer 2021 semester through Spring 2022 or until the funds are exhausted, ACC students will be eligible for assistance from the College. Students taking 1 to 5 credit hours are eligible for \$200; 6 to 8 credit hours qualify for \$300; 9 to 11 credit hours qualify for \$500 and 12 hours or more qualify for \$600 in assistance.

Dual Enrollment students taking 1 to 5 hours can receive \$100; 6 to 8 hours qualify for \$200; 9 to 11 hours qualify for \$250 and 12 hours or more qualify for \$300.

Assistance is available to all credit and CE students whether they are currently enrolled or returning to ACC. Students at all ACC locations are eligible and in all class formats whether in person, online or hybrid.

Students will not have to apply for the assistance and the discount will automatically be credited upon registration. The 2021-2022 tuition and fee estimate is based on 2020-2021 actual tuition and fee revenue. The proposed budget has 11 new positions included in the maintenance and operations budget and 1 new position in the Continuing Education budget.

The Certification of 2021 Values from the July 14, 2021 Appraisal Roll from the Brazoria County Appraisal District shows that the Net Taxable Value has increased to \$13,855,663,301 compared to \$12,672,687,742 in August 2020, which is a 9.3% increase. The increase in Net Taxable Value from 2019 to 2020 was 12.5%. The 9.3% increase in the 2021 value translates into an approximate \$2,162,085 or 10.01% increase in tax revenue. The No New Revenue Tax Rate is the Tax Rate that was

adopted in the September 2021 Board of Regents meeting. The 2021 Tax Rate is .183211 compared to the 2020 Tax Rate of .183443. The break down of the 2021 Tax Rate compared to the 2020 Tax Rate is as follows:

2021 Maintenance Tax is .171457 and Debt Service is .011754 for a Total Tax Rate of .183211.

2020 Maintenance Tax is .170579 and Debt Service is .012864 for a Total Tax Rate of .183443.

Please see the Campus News section below for more detailed information about the local economy.

### **CAMPUS AREA NEWS**

The economy of the local area shows the effects of the COVID-19 pandemic. The news below shows that ACC graduates have a job market that they are entering that has made some gains since the low point that occurred this past spring.

The following economic news comes from the Dallas Federal Reserve Bank, Houston Economic Indicators report dated 9/28/21:

## **Houston Economic Indicators**

September 28, 2021

Despite some signs of slowing amid headwinds from the Delta wave, the Houston recovery is on pace to end the year strongly. The number of COVID-19-positive patients in area hospitals is declining, the payroll expansion continues to be broad based (except for construction), the unemployment rate is falling and initial claims for unemployment insurance benefits are approaching early March 2021 levels. However, while area inflation continues to run below the national rate, the gap between the two has narrowed as Houston inflation has accelerated relative to the nation.

### **Business-Cycle and Leading Indexes**

Economic activity continued to expand robustly in August as measured by the Houston Business-Cycle Index, rising an annualized 8 percent over the three months ending in August 2021 (*Chart 1*). Driven by improvements in employment and unemployment, the index implies the Houston economy is heading into the end of the year with a lot of momentum despite the recent pandemic headwinds.

**Chart 1**  
**Houston Leading and Business-Cycle Indexes**

A leading index of 10 economic indicators for Houston slowed from a pandemic-high growth rate of 7.3 percent over the three months ending in June to 3.3 percent over the three months ending in August. The slowing was broad based across components but led by the Texas Leading Index and existing-home sales.

## Pandemic

All data point toward a peak in infections driven by the Delta variant. The seven-day moving average of hospitalizations has been in decline since reaching 4,032 in early September (*Chart 2*). It fell to 3,002 on Sept. 24. The return of children to public school might still support an elevated level of hospitalizations heading into the final months of 2021, but [Washington University](#) and the [University of Texas COVID-19 modeling consortium](#), among others, are projecting a substantial decline in the number of COVID patients in area hospitals over the coming weeks. This is contributing to the recent improvement the [Texas employment growth forecast](#) to 4.6 percent from December 2020 to December 2021.

Assuming virus hospitalizations have peaked, the daily death count is sure to follow. Daily deaths averaged 59 in the Houston metropolitan area over the seven days ending Sept. 4 and fell further to 51 the following week, though the figures are subject to upward revision. This brought the Houston-area death toll from COVID to

11,411 as of Sept. 9. Preliminary counts through Sept. 24 bring the total to at least 11,695 locally and to 62,469 for Texas as a whole.

**Chart 2**  
**Houston Metropolitan Area COVID-19 Data**

NOTE: Daily data are depicted as a seven-day rolling average through Sept. 24, 2021. Daily deaths for Sept. 10 to Sept. 24 are excluded due to incomplete data. Hospitalization counts are the sum of the Houston and Galveston Trauma Service Areas. Numbers are subject to revision.  
SOURCE: Texas Department of State Health Services

High-frequency data such as mobility, OpenTable restaurant demand, job postings and monthly employment show a modest impact from the Delta wave on economic activity in August and early September. The impact was centered on the leisure and hospitality sector—though that sector is also beset by [challenging labor market conditions](#). As the third wave of the pandemic recedes, so will some of the pressures suppressing business activity in the sector.

## Employment

### Jobs Recovery Continues

Houston's recovery stayed on track in August, though the area has lagged the rest of Texas since early in the pandemic. This was due largely to weakness in the energy sector. Houston payrolls rose to 95.6 percent of pre-pandemic levels in August, having recovered nearly two-thirds of all jobs lost (*Chart 3*). The rest of Texas rose to 98.4 percent, led mainly by growth in the Interstate 35 corridor (San Antonio, Austin and Dallas–Fort Worth). The U.S. is back to 96.4 percent of pre-pandemic employment.

**Chart 3**  
**Employment**

SOURCE: Bureau of Labor Statistics, adjustments by the Dallas Fed

## Job Growth Broad Based Since March 2021

Based on [benchmarked](#) data through first quarter 2021, Houston saw a net loss of 202,000 jobs between February 2020 and the full reopening of Texas by the governor in March 2021 (*Chart 4*). This decline is larger than the current estimate of 192,000 from the Bureau of Labor Statistics, in part due to significant [downward revisions](#) to energy sectors.

Since March, payroll growth has been broad based. Job gains have been led by leisure and hospitality industries (22,000 jobs), which were hardest hit by the pandemic. Close behind were professional and business services (17,000) and education and health services (11,000). Construction is the only sector that has registered job losses since March 2021, according to initial estimates.

**Chart 4**  
**Employment by Sector**

NOTE: Chart shows the seasonally adjusted change in thousands of payroll jobs by sector. Numbers in parentheses represent the share of total employment and may not sum to 100 due to rounding.

## Unemployment Claims Inch Toward Pre-pandemic Levels

The number of initial claims for unemployment insurance in the Houston metropolitan area fell to 4,200 in mid-September 2021, near pandemic lows (*Chart 5*). For comparison, this is still nearly 22 percent above the average number of weekly claims filed in September 2019.

**Chart 5**  
**Initial Claims for Unemployment Insurance**

## Unemployment Dropping as Labor Force Expands

Local unemployment has been declining precipitously relative to the nation and Texas (*Chart 6*). The Houston unemployment rate dropped 1.2 percentage points over the summer, from 7.2 percent in May to 6.0 percent in August. Texas overall dropped 0.7 points to 5.9 percent, and the nation fell 0.6 points to 5.2. Houston has lagged the nation in unemployment largely due to energy industry woes.

**Chart 6**  
**Unemployment Rate**

SOURCE: Bureau of Labor Statistics

The size of the Houston-area labor force increased to 3.4 million in August, based on a seasonally adjusted, three-month moving average. That is roughly 98.6 percent of pre-pandemic levels and marks a recovery to December 2020 levels. However, measures of local unemployment and labor force participation can be subject to significant revisions.

## Consumer Price Inflation

August's Consumer Price Index (CPI) for Houston continued to pick up steam. The annualized pace of inflation since February 2020 rose to 2.9 percent from 2.5 percent in June (*Chart 7*). This longer view avoids distortions caused by comparing the present to the unusual circumstances of the pandemic. Nationally, the headline CPI inflation rate remained higher but registered a more modest increase to 3.6 in July and August from 3.5 percent in June.

**Chart 7**  
**Consumer Price Indexes**

Percent change from February 2020, annualized

NOTE: All data are seasonally adjusted. CPI stands for Consumer Price Index.  
SOURCE: Bureau of Labor Statistics, author's calculations

Transportation and housing have made outsized contributions to CPI inflation at the national and local level the past two years, but growth in these components was more modest in Houston. Nationally, the new and used car price index grew an annualized 13 percent from February 2020 to August 2021. By comparison, Houston's auto inflation index grew 9.8 percent, and it is given a slightly higher weight in the aggregate index locally than nationally.

The shelter price index—which accounts for over a third of the CPI—grew at an annual pace of 2.4 percent from February 2020 to August 2021 in the U.S. versus 0.8 percent in Houston. Rising home prices may have far-reaching [implications for overall inflation](#).

## Home Prices

Nominal Houston home values were up 9.1 percent through the second quarter of this year based on area mortgages—close to the growth observed at the height of the shale boom in 2013 and 2014, according to Federal Housing Finance Agency (FHFA) indexes (*Chart 8*). By comparison, Texas overall saw home prices grow 15.4 percent, while the U.S. was up 15.0 percent. Both are record rates. The slower pace of growth in Houston this year is likely due to headwinds from the oil bust.

Tracking the closing price of conventional mortgages on the same properties across time, the FHFA price indexes capture a broad-based picture of home price appreciation that avoids some of the challenges caused by changes in the composition of housing over time.

Notes: Flex Terms are not included in enrollment above.

Summer terms are not included in their academic year. Example - Summer 2016 is in the 2016-2017 column

This is done in the budget book as the Summer has not completed while the budget is being developed so the prior one is used.
