# WORKSHOP

Introduction to Sound System Fundamentals

Join this engaging six-week workshop to explore the essentials of professional sound systems!

From microphones and mixing consoles to speakers and monitors, you'll gain hands-on experience with both analog and digital setups. Learn to assemble, configure, and mix sound systems, culminating in live sound mixing with a real band. Perfect for beginners and enthusiasts eager to master live sound engineering!

March 24 - April 28
Mondays, 7 - 9 p.m.
ACC Band Hall (B-117)
$100
