

Please review the below chart of CEWD Health Care program information. Per the requirements of House Bill 1508, make note of limitations of licensing or employment due to offenses of your background check. This new statute requires that any educational institution offering a program that prepares a student for an occupational license be notified of the below four items in order to comply with the statute:

1. The potential ineligibility of an individual who has been convicted of an offense for issuance of an occupational license upon completion of the program;
2. Current guidelines by any licensing authority that may issue an occupational license to an individual who completes a program;
3. State/local guidelines used by a licensing authority to determine eligibility for a license;
4. The student's right to request a criminal history evaluation letter.

Program Name	Exam Costs/Licensing Information	Website

Medication Aide for Nurse Assistant	\$25 - Department of Aging & Disability Services/Texas Health and Human Services	https://hhs.texas.gov/doing-business-hhs/licensing-credentialing-regulation

Due to merging of many departments within the State of Texas, please take the time to review the website for your licensing authority **prior to enrollment** into a Continuing Education Health Care program. Students who have been convicted of a felony must contact the appropriate credentialing agency to determine eligibility. Many agencies have a criminal history evaluation. If there is no criminal evaluation and you have had a prior conviction, it may be difficult to find employment in the health care industry.

I have read this information sheet and understand it is my responsibility to ensure no issues regarding my criminal history limit me from gaining the respective licensing.
