

Congratulations on deciding to further your education and training with one of the Healthcare Programs through CEWD.

The supplies you will need for your class is determined by which program you are enrolled in.

➤ **Scrubs have a specific color for each program.**

Program	Color	Suggested # of sets
Certified Nursing Assistant	Navy Blue	2
Clinical Medical Assistant	Red	2
Phlebotomy Technician	Ceil Blue	1
Dental Assistant	Black	2
Certified EKG Technician	Grey	1

It is suggested you purchase the Cherokee® Work Wear brand. This maker comes in all sizes. The tops should have pockets and fit to where you can cross your arms like you are trying to touch your opposite shoulder blade. The pants should not drag the ground or show your backside if/when you squat to the floor.

Lab jackets are optional. If you determine you will need one, they should be the same color as the set of scrubs. (They are helpful to cover any visible tattoos and/or if you tend to be cold.)

➤ **Student Identification Badge**

Go to the Student Activities office in E Building for your student ID. You need to ensure the program you are registered in is clearly on the ID.

ID's should be worn and visible for all classes and during clinical.

➤ **Additional items per program (other than books):**

Program	Additional items
Certified Nursing Assistant	Watch with second hand, Black White or Grey non-skid shoes
Clinical Medical Assistant	Stethoscope, watch with second hand, Black, White or Grey lace up shoes, Blue, and Black pencils
Phlebotomy Technician	Black, White or Grey color non-skid tennis shoes
Dental Assistant	Red and Blue pencils non-skid tennis shoes

➤ **Program Patches: (COMING SOON)**

Each student will be given 2 ACC program patches that should be applied to the left sleeve approximately 3 - 4 inches down from the shoulder. Additional patches may be purchased at \$5 a patch.
