

ACC Academic Transfer Pathways

Academic Pathways prepare students to transfer to 4 year universities. These classes transfer with a grade C or higher to Texas public colleges and universities. Students on an Academic Pathway have the opportunity to graduate with an Associates in General Studies.

How do I select my 18 hours of Electives?

Students are encouraged to select elective coursework based on their desired major and college or university of choice. Students also have the opportunity to take coursework in their Field of Study (FOS). A FOS is a selection of lower-division courses that are guaranteed by state law to transfer and apply to a degree program. If a student takes all the courses in a FOS and then transfers to another Texas public institution of higher education, the FOS is guaranteed to transfer as a block and be applied to the appropriate major. The student is finished with all lower-division courses for the degree program as long as the following has been completed:

- Texas common core curriculum (mentioned above)
- The university or college courses required of all students regardless of major, if any
- The FOS

This is true even if the institution to which the student transfers requires a different selection of lower-division courses and even if the institution has prerequisites for their upper-division courses not included in the FOS (THECB, 2019). Visit with your ACC Advisor to determine which courses are considered "dual" and which are only offered at ACC.
